

Quality, Health, Safety and Environmental Policy Statement

Peter J Douglas Engineering Limited Ltd (PJD) are an engineering construction contracting company working for clients in the petrochemical, power generation and chemical production industries. The company specialises in installation, repair and maintenance of high pressure steam generating plant including boilers, heat exchangers, economisers, superheaters and associated ancilliary plant employing specialist craftsmen to conduct welding, mechanical fitting, pipefitting and other support activities.

The company is totally committed to delivering safe, high quality products and services that satisfy both our Customer requirements, our applicable legal and other requirements and those of other interested parties, whilst preventing pollution, protecting and improving the environment.

We will achieve this through consistent and systematic application of our Management System, which meets the requirements of international standards (ISO 9001,14001,18001) for best practice in Quality, Health, Safety and Environment. Through this we will protect and enhance our reputation and that of our customers, whilst maintaining a safe and healthy working environment and preventing or minimising risk to the health and safety of our employees and to others who may be affected by our activities.

We shall actively communicate and co-operate with our employees, customers, regulatory authorities and other interested parties to fully understand their requirements and expectations and encourage their input to improving our product services and our business performance. To this end we are committed to ensuring that all our employees are competent to undertake the tasks they are asked to perform.

All employees have a responsibility to take reasonable care for the health and safety of themselves and all others affected by their work. Employees are also responsible for implementing documented working practice and standards in a safe manner, whilst protecting the environment. Employees also have an obligation and responsibility for initiating action to change those requirements which are no longer valid or effective.

We shall ensure that the policies of Contractors under our control are consistent with the principles and aims of this policy.

Directors and Management shall ensure the requirements of this policy are systematically and consistently implemented taking into account the business needs and the legislative requirements of any host nation. Company annual objectives and targets, will be set, implemented, monitored, measured and reviewed to achieve continual improvement.

The Managing Director will ensure that adequate resources are made available to achieve these aims of health, safety and quality whilst protecting and striving to improve the environment.

D N Hayle
Managing Director

Reviewed 08th December 2020

Review Date 07th December 2021

This policy will be reviewed annually at the company Management Review for adequacy in meeting current and future business needs. Amendments will be made to ensure continuous improvement. This policy will be communicated to all employees and made available for information to interested parties and the public.
